SOFTWARE DEVELOPER

As a healthcare provider turned software developer, I bring a unique perspective and skillset to my work. With a strong foundation in patient care and a passion for technology, I can create innovative solutions that have the potential to make a great difference. I specialize in full-stack development and prioritize user experience in all my projects. My strong communication skills, attention to detail, and ability to collaborate effectively with cross-functional teams make me an asset. I look forward to growing and developing as a software developer and to making a meaningful contribution to the field.

TECHNICAL SKILLS

- SQL, CRUD, Stored Procedures
- C#; Desktop Apps, Unit testing, Entity Framework
- GIT, GitHub
- HTML, CSS, Bootstrap
- Javascript, JQuery
- React
- Requirement Analysis
- Relational Database Schema Design
- Object Oriented Programming
- Cloud Computing using Microsoft Azure

PROJECT HIGHLIGHTS

CPU Framework

Camille Abadia's Software Portfolio' (ca-portfolio.azurewebsites.net)

Developed a software architecture to expedite and streamline production of data driven software. It contains generic code for functionality that is common to all applications, and object-oriented code using generics to bind business objects to SQL stored procedures.

Recipe Windows/Web Project

<https://recipewebsitecpu.azurewebsites.net>

Designed a database to support publication of recipes based on user spec. CRUD system was implemented with CPU Framework. A fully functional website where users can browse a variety of different cuisines, recipes, and meals.

EDUCATION

CPU Code School 2022

Trained in the full stack of software development, from requirements gathering to implementation of database, middle tier, and front end. SQL Server, C#, ASP.Net, and Xamarin for mobile apps.

SUNY Downstate Medical Center, Brooklyn, NY – B.S in Biology and Health Sciences 2016

Multi Modality Sonographer, RDMS(AB, Ob/Gyn), RDCS, RVT.
